7. Venue is proper in this judicial district as to Defendant pursuant to 28 U.S.C. §§ 1391 and 1400(b).

THE PATENT-IN SUIT

8. Paragraphs 1-7 are incorporated by reference as if fully set forth herein.

9. On November 29, 2011, the '073 Patent entitled "System And Method For Facilitating Bilateral And Multilateral Decision-Making" was duly and lawfully issued by the United States Patent and Trademark Office ("PTO"). The '073 Patent is attached hereto as Exhibit A.

10. Plaintiff is the exclusive licensee of the '073 Patent and possesses all rights of recovery under the '073 Patent, including the right to sue and recover all damages for infringement thereof, including past infringement.

COUNT I – PATENT INFRINGEMENT

11. Paragraphs 1-10 are incorporated by reference as if fully restated herein.

12. Upon information and belief and in violation of 35 U.S.C. § 271(a), Defendant has infringed and continues to infringe at least Claim 1 of the '073 Patent by making, using, providing, offering to sell, and selling (directly or through intermediaries), in this district and elsewhere in the United States, a computer implemented method for facilitating evaluation, in connection with the procurement or delivery of products or services, in a context of at least one of a financial transaction and operation of an enterprise, such context involving a first class of parties in a first role and a second class of counterparties in a second role. Defendant's eProcurement system retrieves first preference data from a digital storage medium, the first preference data received from the client, and assigns attribute levels (weights) based on the choices made by the client (first class of parties). Defendant's eProcurement system retrieves second preference data from a digital storage medium, the second preference data received from the vendors/carriers, and assigns attribute levels using a scoring system, the attribute levels based on the choices made by the

vendors/carriers (counterparties). Defendant's eProcurement system performs multilateral analyses of the clients (selected party) preference data and the preference data for each of the vendor/carrier (counterparties), and computes a closeness-of-fit value (ranking system) based thereon. Further, Defendant's eProcurement system uses the closeness-of-fit value (ranking system) to derive and provide a list to the client matching the client (selected party) and at least one of the vendor/carrier (counterparties).

14. To the extent such notice may be required, Defendant received actual notice of its infringement of the '073 Patent at least as early as the filing of the complaint in this action, pursuant to 35 U.S.C. § 287(a).

Plaintiff is entitled to recover from the Defendant the damages sustained by Plaintiff as a result of the Defendant's wrongful acts in an amount subject to proof at trial, which, by law, cannot be less than a reasonable royalty, together with interest and costs as fixed by this Court under 35 U.S.C. § 284.

17. Defendant's infringement of Plaintiff's exclusive rights under the '073 Patent will continue to damage Plaintiff, causing irreparable harm for which there is no adequate remedy at law, unless enjoined by this Court.
